

**COMPANY
PROFILE**

"EXCELLENCE IN MEDICAL CONSUMABLES & HEALTHCARE SOLUTIONS"

ABOUT XENIX LTD

Xenix Limited is a leading distributor and supplier of non-pharmaceutical medical consumables and healthcare solutions in Kenya and the wider East African region. Headquartered in Nairobi, the company was established to address critical gaps in the healthcare supply chain by providing reliable access to high-quality, affordable, and internationally certified medical products.

We serve a diverse client base that includes national and county referral hospitals, private hospitals, clinics, diagnostic laboratories, NGOs, faith-based institutions, and home-care providers. By partnering with reputable global manufacturers and adhering strictly to local regulatory standards, Xenix Limited ensures that healthcare providers can focus on patient care without disruption caused by supply shortages or compromised quality.

Our operational model is built around efficiency, compliance, and responsiveness, enabling us to deliver essential medical consumables on time, every time. Through innovation, strong logistics infrastructure, and a commitment to clinical integrity, Xenix Limited positions itself as a trusted healthcare supply-chain partner in a rapidly evolving medical landscape.

CORPORATE IDENTITY

Mission

To enhance healthcare standards in Kenya and East Africa by ensuring the consistent availability of safe, high-quality, and affordable medical consumables that support effective diagnosis, treatment, and patient care.

Vision

To be the most trusted and dependable healthcare supply-chain partner in the region, recognized for reliability, regulatory excellence, and unwavering commitment to patient safety.

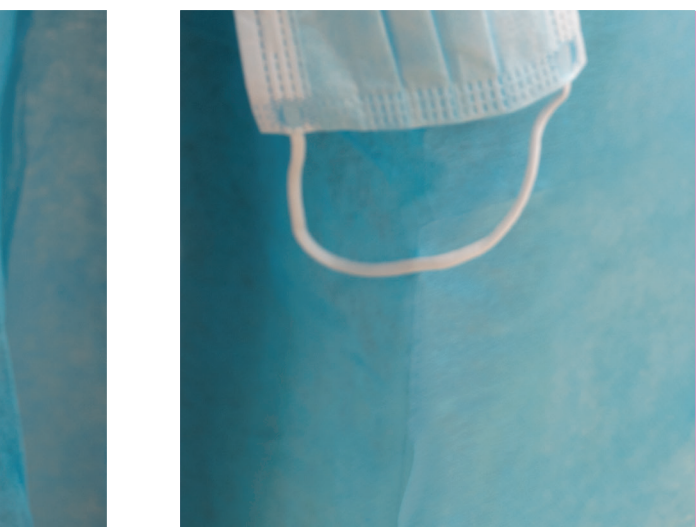

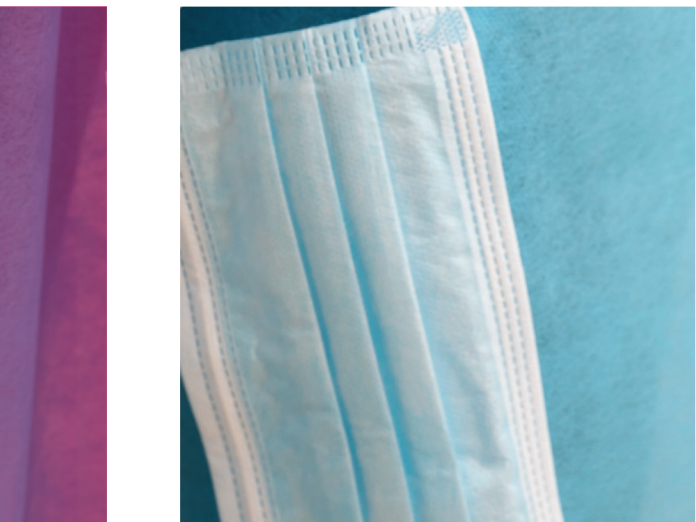

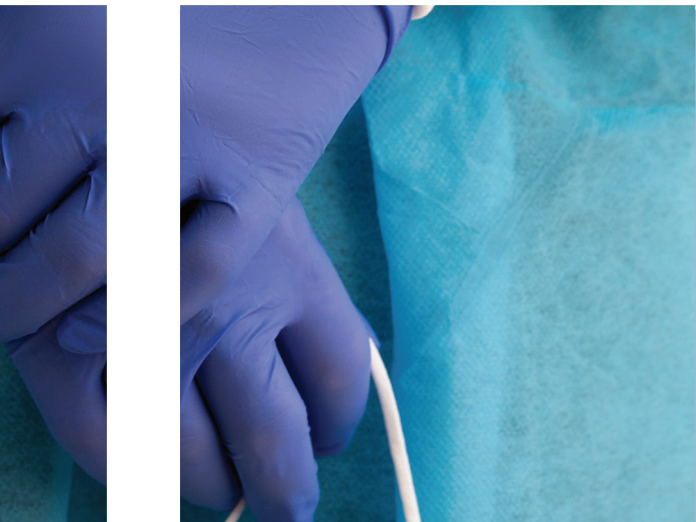

CORE VALUES

- **Integrity**

We uphold the highest ethical standards in sourcing, procurement, and distribution, ensuring full compliance with Kenyan and international regulatory requirements.

- **Reliability**

We understand that lives depend on timely access to medical supplies. Our systems are designed to ensure uninterrupted availability and dependable delivery.

- **Quality**

We only stock products that meet or exceed KEBS, PPB, and internationally recognized quality benchmarks, ensuring clinical safety and performance.

- **Customer-Centricity**

We tailor our solutions to meet the specific operational needs of healthcare institutions, from large hospitals to individual home-care patients.

- **Accountability**

We take full responsibility for the products we supply and the services we deliver, maintaining transparency with all stakeholders.

OUR SERVICES

Xenix Limited offers a comprehensive and carefully curated range of non-pharmaceutical medical consumables designed to support clinical efficiency, infection control, and patient safety across multiple care settings.

A. SURGICAL & THEATRE CONSUMABLES

• **Wound Management**

Sterile gauze swabs, cotton wool, absorbent dressings, crepe and elastic bandages, zinc oxide surgical tapes, adhesive plasters, and advanced wound care dressings for post-operative and trauma care.

• **Surgical Wear & Draping**

Disposable and reinforced surgical gowns, caps, masks, shoe covers, and sterile surgical drapes designed to maintain aseptic conditions in operating theatres.

• **Sutures & Surgical Blades**

A wide range of absorbable and non-absorbable sutures, including braided and monofilament options, as well as high-precision surgical blades for various specialties.

B. PERSONAL PROTECTIVE EQUIPMENT (PPE) & INFECTION CONTROL

• **Gloves**

Sterile surgical gloves and examination gloves available in nitrile, latex, and vinyl to suit different clinical needs and sensitivities.

• **Respiratory & Face Protection**

3-ply surgical masks, N95 respirators, face shields, and protective eyewear for frontline healthcare workers.

• **Sanitization & Disinfection**

Medical-grade hand sanitizers, alcohol-based hand rubs, surface disinfectants, antiseptic solutions, and surgical spirit for infection prevention and control.

C. DIAGNOSTIC & PATIENT MONITORING TOOLS

• Digital and manual sphygmomanometers for accurate blood pressure monitoring.

• Infrared and contact thermometers for non-invasive temperature measurement.

• Pulse oximeters for oxygen saturation monitoring.

• Glucometers and compatible blood glucose test strips for diabetes management.

D. GENERAL HOSPITAL CONSUMABLES

- Syringes and needles (all gauges), IV cannulas, infusion sets, and extension lines.
- Foley catheters, urine drainage bags, nasogastric and feeding tubes.
- Sharps containers, biohazard waste disposal bags, and clinical waste management accessories

OPERATIONAL EXCELLENCE & LOGISTICS

At Xenix Limited, we recognize that in healthcare, timeliness and reliability directly impact patient outcomes.

- **Warehousing & Storage**

Our warehouses operate under Good Distribution Practices (GDP), with proper stock rotation (FIFO/FEFO), temperature control, and contamination prevention protocols to maintain product integrity.

- **Distribution Network**

We leverage partnerships with reputable logistics providers such as G4S and Wells Fargo to ensure:

- o Same-day or 24-hour delivery within Nairobi and its environs.
- o 48-hour delivery to all 47 counties across Kenya.

- **Institutional Supply Solutions**

We offer customized supply models, including Just-in-Time (JIT) inventory management, bulk procurement, and framework contracts to help hospitals reduce holding costs and avoid expiries.

- **Emergency & Bulk Orders**

Our agile supply chain allows us to respond rapidly to emergency requests and large-scale institutional tenders.
